

United Kingdom
Certificate of Completion of Training

General
Medical
Council

Regulating doctors
Ensuring good medical practice

GMC reference number: 6050680

Date of issue: 28/10/2011

Practitioner's name: Menon, Suraj

Registered qualifications: MB BS 1999 University of Kerala, India

Postgraduate medical
training completed in: **Specialty**
Clinical radiology

Sub-specialty
None

This certificate is awarded to specialist doctors under Annex V (Section 5.1.2) of EU Directive 2005/36/EC. Where the above medical specialty is listed in Annex V (Section 5.1.3) of the Directive as one in which the UK awards specialist medical qualifications, then the training leading to the award of this certificate satisfies the requirements of Article 25 of the Directive.

Registrar

Neil Dickson

Important notes

Certificate of Completion of Training (CCT)

A CCT confirms satisfactory completion of an approved programme of training in the UK and is one of the certificates which allow entry onto the General Practitioner (GP) Register or Specialist Register.

The CCT is awarded to specialist doctors under Annex V (point 5.1.2) of Directive 2005/36/EC for the UK. The certificate confirms the satisfactory completion of specialist training which satisfies the requirements of Article 25 of the Directive or Article 28 where the specialty is General Practice.

Certificate of Eligibility for General Practice Registration (CEGPR) or Certificate of Eligibility for Specialist Registration (CESR)

A CEGPR or CESR confirms that the named individual is eligible (once they hold full registration with the GMC) for entry onto the GP Register or Specialist Register. This would (subject to them also holding a licence to practise) allow them to practise as a General Practitioner (for CEGPR) or to hold a substantive, fixed term or honorary consultant post in the UK National Health Service (NHS) (for CESR). The holder of a CEGPR or CESR is treated in the same way as the holder of a CCT in the UK. However, the CESR or CEGPR is not the certificate listed in Annex V, point 5.1.2 of Directive 2005/36/EC for the UK, and does not confirm completion of specialist training and therefore does not satisfy the minimum requirements for specialist training in accordance with Article 25 or Article 28 (respectively) of Directive 2005/36/EC.

General information regarding certificates

If you have any concerns about the validity of this certificate, you can check our online Register at www.gmc-uk.org where you can verify if the named individual has been entered onto the GP Register or Specialist Register as a result of this certificate being awarded. Please note that in some cases, the recipient of this certificate has not requested entry onto the GP Register or Specialist Register and as a result their name will not be shown on the relevant register. You can still verify that the certificate has been awarded to the named individual by calling the General Medical Council (GMC) on 0161 923 6602 (+44 161 923 6602 from outside the UK).

This document is not evidence that the named individual is currently registered with the GMC and licensed to practise in the UK. You can check a doctor's current status on our Register on our website www.gmc-uk.org or by calling us on the number above. This document is not proof of identity.

General Medical Council, Regent's Place, 350 Euston Road, London NW1 3JN
